

Crash

NOTD

When you steer
I'm the dear in your headlights
And when I cry
You're the tears in my late nights

Say if you could fix me wouldn't you like to
Cause I know that I would if I had the chance
It's almost the oxygen's getting our way
There not enough for you and me

I try to get right right in my mind
In a loop I'm falling down
In the end I crash into you
I've been around round
Head to ground
Gravels up I'm heading down
In the end, I crash into you
I crash into you
Crash into you

Can't say no
When my body saying maybe
We should do it
Cause when we do it
It's like I know
If I'm losing this battle least I know I'm not in control

Say if you could fix me wouldn't you like to
Cause I know that I would if I had the chance
It's almost the oxygen's getting our way
There not enough for you and me

I try to get right right in my mind
In a loop I'm falling down
In the end I crash into you
I've been around round
Head to ground
Gravels up I'm heading down
In the end, I crash into you
I crash into you
Crash into you

I try to get right right in my mind
In a loop I'm falling down
In the end I crash into you
I've been around round
Head to ground
Gravels up I'm heading down
In the end, I crash into you
