

# Killing Me

NOTD

Look at you  
Over there over me with someone new  
It's like he fixed your heart with superglue, so fast  
I'm so mad at how happy you are now  
There you go  
Acting like nothing ever happened, don't you know  
How hard that it's been for me to let you go  
Oh my, God I'm so sick of seeing you out

Smiling in pictures  
Like you've never been better  
Just throwing it all in my face

It's killing me  
Tell me why you gotta bring out all my jealousy  
Baby you don't even treat me like an enemy  
We're done, we're through  
Yeah, it's just killing me  
How much it's not killing you  
How much it's not killing you

I wish you would  
Stop tellin' all my friends you're doing good  
Cause, I still miss you more than I probably should  
So, pump the breaks I'm moving on  
Cause you never cared about me, no you ever did

It's killing me  
Tell me why you gotta bring out all my jealousy  
Baby you don't even treat me like an enemy  
We're done, we're through  
Yeah, it's just killing me  
How much it's not killing you  
How much it's not killing you

Can't you have little decency  
And maybe try to be a little less over me  
Do you even cry  
Lose any sleep at night  
Cause you're really convincing  
How much you're living your life  
And it's just

It's killing me  
Tell me why you gotta bring out all my jealousy  
Baby you don't even treat me like an enemy  
We're done, we're through  
Yeah, it's just killing me  
How much it's not killing you  
How much it's not killing you  
How much it's not killing you  
How much it's not killing you
