Less I Know

NOTD

I'm gonna bring my offering
Settle for the on and off again
You ain't gotta lie
No, you ain't gotta try

Broke 'cause my heart was tossed again
Smoke until my mind is altering
You ain't gotta lie
No, you ain't gotta try

You know that you can
Go where you want just leave your kiss
I'm down to break my heart like this
I'll trade it all for part time bliss

Oh, you can hang from me loosely
As long as you don't let go
Don't let go, don't let go
Don't let go, don't let go

If you could save me your words
I'll get more from the less I know
Less I know, less I know
Less I know, less I know

I know there's a chance that I'll regret
Settle for the take what I can get
I don't wanna know
No, I don't wanna go, no

You know that you can
Go where you want just leave your kiss
I'm down to break my heart like this
I'll trade it all for part time bliss

Oh, you can hang from me loosely
As long as you don't let go
Don't let go, don't let go
Don't let go, don't let go

If you could save me your words
I'll get more from the less I know
Less I know, less I know
Less I know, less I know

Less I know, less I know
Less I know, less I know

You can hang from me loosely
As long as you, as long as you...
You don't let go

Oh, you can hang from me loosely
As long as you don't let go
Don't let go, don't let go
Don't let go, don't let go

If you could save me your words
I'll get more from the less I know
Less I know, less I know
Less I know, less I know

Less I know, less I know
