

Lover Online

NOTD

Sometimes I wanna close but not too close
'Cause feelings get messy
I get enough of attention through my phone
So, when I go out, i

I just wanna have fun
I just wanna be dumb
I just wanna dance on my own

I just wanna have fun
I just wanna be dumb
I just wanna dance on my own

I'd rather find a lover online
Tonight
And mutually pretend we're in love for life
You can boost my confidence 'til I feel alright
But if you hit up to get down, I'll just move on to the next in line
Online
And virtually get lost in someone's eyes
Without the consequence of wasting time
But if you hit up to get down, I'll just move on to the next in line

Lover online

I'd rather find a lover online

I like making a scene there on my screen
That way it won't hurt me
I know that love don't ever turn out the way it seems
The way, the way

So, when I go out, i

I just wanna have fun
I just wanna be dumb
I just wanna dance on my own

I just wanna have fun
I just wanna be dumb
I just wanna dance on my own

I'd rather find a lover online
Tonight
And mutually pretend we're in love for life
You can boost my confidence 'til I feel alright
But if you hit up to get down, I'll just move on to the next in line
Online
And virtually get lost in someone's eyes
Without the consequence of wasting time
But if you hit up to get down, I'll just move on to the next in line
