Wanted

NOTD

You would take me, you would have me
Dead or alive, every single night

I could let you, I would let you
But is it a crime to play with your mind

Don't get too upset with me
You're the one obsessed with me
Oh oh oh oh, oh oh oh oh
Should I surrender now

Chasing after me like I'm wanted
Call the cops, it makes me feel wanted
You're turning me in and I don't blame you
Cause every time you're gone I wanted it too
You mess me up yeah just like you wanted

You mess me up yeah just like you wanted
You mess me up yeah just like you wanted

Why I do feel like you're watching me
When you're not around you're still here somehow
Red and blue lights light up the sky
I'm not even scared, love me if you dare

Don't get too upset with me
You're the one obsessed with me
Oh oh oh oh, oh oh oh oh
Should I surrender now

Chasing after me like I'm wanted
Call the cops, it makes me feel wanted
You're turning me in and I don't blame you
Cause every time you're gone I wanted it too
You mess me up yeah just like you wanted

Just like you wanted
You mess me up yeah just like you wanted
(Just like you wanted, just like you wanted)
Just like you wanted, just like you wanted
You mess me up yeah just like you wanted

Just like you wanted
