NOTD

Been around the block I've  
Been around the bar my  
Thoughts are working overtime  
Wondering who you are  
Standing in the lobby  
Drinking déjà vu  
Another bad connection  
With someone who isn't you

I'm so sick of getting burned  
By sparks not fireworks

I'm looking I'm looking I'm looking I'm looking for timeless  
I'm looking for colors chromatic and love ultraviolet  
I'm looking I'm looking for something that's got my heart in a vice grip  
I don't know but I  
I know I'll know it

When I find it  
When I find it  
When I find it  
I don't know but I  
I know I'll know it

When I find it  
When I find it  
When I find it  
I don't know but I  
I know I'll know it

Are you lonely with me?  
Mixing hopelessness and whiskey  
Wondering how you miss me  
When you haven't met me yet  
Do you go all in  
But it never works?  
Are you sick of getting burned  
By sparks not fireworks?

I'm looking I'm looking I'm looking I'm looking for timeless  
I'm looking for colors chromatic and love ultraviolet  
I'm looking I'm looking for something that's got my heart in a vice grip  
I don't know but I  
I know I'll know it

When I find it  
When I find it  
When I find it  
I don't know but I  
I know I'll know it

When I find it  
When I find it  
When I find it  
I don't know but I  
I know I'll know it

I know I'll know it
