

Deaemonium I

Nothgard

Confiteor Deo omnipotentiet
Cogitatione, verbo, opere et omissione

Oh Lord I can feel the lust
- Save me -
Oh Lord where is my disgust
- Punish me -

Oh your bitter lips drag me straight to hell
A temptation like a magic spell

All terrene chains be unleashed
No regrets - we break free
Sweet desires be fulfilled
No regrets - we break free

Et angelis sanctis
Daemonium
Incestus

Blood disgrace is my own demise
- Save me -
Appetite for the forbidden fruits
- Demon in me -

A sinful game beyond control
Hell awaits our damned souls
All sweet desires be fulfilled
No regrets - we break free

We break free!

Oh Lord come save me, oh show grace, mercy
Oh Lord come save me, oh punish me
