## Nothing But Thieves

They're shutting down the protest  
Yeah we're so on trend  
Quick, go grab a picture  
Go get that content  
You're stealing the attention  
But it's a great look  
Why do you wanna do good  
When you can feel good?

I wanna be Futureproof  
Come and lift me up until I'm higher, higher  
Vulture coming to steal my youth  
Throw the pieces down into the fire, fire

Liars coming to take my truth  
I want to be Futureproof

Oh hang on, did I mention  
You're on the hit list?  
Taking your intention  
Now it's irrelevant  
There's poison in the water  
And we deserve it  
The future is a monster  
And now it's turning

I wanna be Futureproof  
Come and lift me up until I'm higher, higher  
Vulture coming to steal my youth  
Throw the pieces down into the fire, fire

Liars coming to take my truth  
I wanna be Futureproof

There's a fire  
In the bedroom  
On the forum  
In the ether

There's a fire  
In the kitchen  
In the species  
In the creature

There's a fire  
At the party  
In the summer  
In the secret

There's a fire  
In the basement  
On the luna  
In the dreamer

On the water  
In the creature  
In the body

In the species

I wanna be Futureproof  
Come and lift me up until I'm higher, higher  
Vulture coming to steal my youth  
Throw the pieces down into the fire, fire

Liars coming to take my truth  
I wanna be Futureproof
