

## Reset Me

## Nothing But Thieves

I think it's the time  
To hold down, rewind  
Tear this city down  
Concrete makes me sick  
Generation beat  
Can you hear the sound?

Hey baby, you ok?  
Still feeling strange?  
I'm starting to think our luck could change  
Some people fear the end  
But I carry it  
It's in my pocket, it keeps me safe

But what if it was simple  
And what if it made sense  
What if we were living  
In a perfect tense  
'Cause what if you reset me  
What if we restart  
What if you reset me  
Before it falls apart

Border lines are drawn  
'Cause of where you're born  
Don't you dare protest  
Red and white and blue  
We'll look after you  
'Cause we know what's best

Hey you can't lose the war  
When you sell the guns  
Your car runs on oil as thick as blood

But what if it was simple  
And what if it made sense  
What if we were living  
In a perfect tense  
'Cause what if you reset me  
What if we restart  
What if you reset me  
Before it falls apart

Hey baby, you ok?  
Still feeling strange?  
I'm starting to think our luck could change  
Some people fear the end  
But I carry it  
It's in my pocket, it keeps me safe

But what if it was simple  
And what if it made sense  
What if we were living  
In a perfect tense  
'Cause what if you reset me  
What if we restart  
What if you reset me

Before it falls apart
