Nothing More

Everything is better when you're dreaming
Everything is better when the world fades out
Everything is better when you're dreaming
Everything is better when you leave the ground

When you leave the ground
When the world fades out
And when you're dreaming
Everything is better when you're dreaming

Now if you breathe in and hold it
You lose your breath
But if you breathe out, it comes back to you

If you want life, don't cling to it
Let go
