

# DOWN THE RIVER

Nothing More

Life's wearing me out  
Keeps pushing me down  
Keeps pushing me down the river  
Like an unmarked grave  
Been lost for days  
Keeps pushing me down the river

Please, please, please

Carry me away, carry me away  
Rolling with the waves  
Come what may  
Carry me away, away from yesterday  
Cradle to the grave

Keep pushing me down, keep pushing me down  
Keep pushing me down the river

Fuck the future now  
Let the past burn out  
Don't fight against the river  
Gonna take my doubts  
And drown them out  
To make my dreams a little bit clearer

Please, please, please

Carry me away, carry me away  
Rolling with the waves  
Come what may  
Carry me away, away from yesterday  
Cradle to the grave

Keep pushing me down, keep pushing me down

Keep pushing me down  
Keep pushing me down the river  
It all gets swept away  
With every fuck I gave, every fuck I gave  
And all the faces fade  
And all the love we made, all the love we made

Life still carries on  
On and on and on  
On and on and on  
I'll keep pushing on  
I'll keep holding strong  
I'll keep holding strong

Please, please, please

Carry me away, carry me away  
Rolling with the waves  
Come what may  
Carry me away, away from yesterday  
Cradle to the grave

Keep pushing me down, keep pushing me down  
Somebody save me  
Keep pushing me down, keep pushing me down  
I know you said it's good  
Keep pushing me down, keep pushing me down  
Somebody save me  
Keep pushing me down, keep pushing me down
