GIVE IT TIME

Nothing More

The ocean's at my feet
And there's a mountain in front of me
And all the battles, I've fought alone
Built the man standing here that you now know

Life is short and filled with struggle
It gives us more than it takes
It gives us just enough
To keep our heads up

It'll take your heart and rip it out
It'll lift you up, then knock ya down
When it hurts the most, just give it time
Yeah
Like a diamond from a stone
It's in the pain that we grow
When it hurts the most, just give it time
Yeah

There's no running away, running away this time
From all of the things, all of the things that I hide
It took all these years to swallow my pride
It's a fight where no one gets out alive

Life is short and filled with struggle
It gives us more than it takes
It gives us just enough
To keep our heads up

It'll take your heart and rip it out
It'll lift you up, then knock ya down
When it hurts the most, just give it time
Yeah
Like a diamond from a stone
It's in the pain that we grow
When it hurts the most, just give it time
Yeah

Give it time, yeah
Give it time, yeah
Give it time, time, time, yeah
Give it time, yeah

It'll take your heart and rip it out
It'll lift you up, then knock ya down
When it hurts the most, just give it time
Yeah
Like a diamond from a stone
It's in the pain that we grow
When it hurts the most, just give it time
Yeah

Give it time
