

Love?

Nothing More

I caught you
But you wanted the stars
Did I not shine?
I showed you you
You showed me me
And this is how love is supposed to be

I'm waiting for you, waiting
I'll be here,
Please change your mind and come home tonight

I'll sing it 'til the stars fall down
I'll sing it 'til my lungs dry out
I can sing it all night long
But you never listen when I sing this song

Lie to me
And try to make me believe
That I can save you, unchain you
From your mind that takes, cause your heart won't break
And this is how love is supposed to be?

You said it best
Logic will break your heart
You don't know it yet
It's torn your world apart
Do you always run
When the stakes are getting high?
If loving you is the death of me
Then now's the time to die

Goodbye to you baby
Goodbye

I'm not waiting
I've made up my mind, don't come home tonight

I'll sing it 'til the stars fall down
I'll sing it 'til my lungs dry out
I can sing it all night long
But you didn't listen when I sang this song
