

STUCK

Nothing More

Stuck

I've always been the one to
Find a way, make a change
Hit the wall and break through
You don't walk in my shoes
'Cause it would break you
Shut your mouth, know your place
'Cause now the debt is due
Debt is due

Do not assume
I got this attitude
From a lucky hand I drew
I pulled this out the dirt
I did the dirty work
You can bury the dead
Yeah, I got nothing to lose
Nothing to lose

It's over, it's over
It's my time
It's my time
This song is
My closure
It's my time
It's my time
This is for the people who can't break through
I used to feel just like you
Stuck

Uphill battles every day, I'm at my breaking point
I lay the cards out on the table to show you case and point
Speaking loud to me again but I cannot hear your voice
I've lost my sense of self but don't count me out, I don't disappoint

Do not assume
I got this attitude
From the lucky hand I drew
I pulled this out the dirt
I did the dirty work
You can bury the dead
I got nothing to lose
Nothing to lose

It's over, it's over
It's my time
It's my time
This song is
My closure
It's my time
It's my time
This is for the people who can't break through
I used to feel just like you
Stuck

Stuck

It's my time, my time
Don't count me out
It's my time, my time
Don't let me down
It's my time, my time
Don't count me out
It's my time, my time

Soul searching for signs, don't try to rescue me
Do this on my own until they bury me
Final time I let you get the best of me
Nothing left to lose, follow my destiny

This is for the people who can't break through
I used to feel just like you

It's over, it's over, it's over
It's my time
It's over, it's over
It's over
