Running streamlined have
To seem not performing
Put your fear in me
I keep going find me
Everything gone fine
To dive over and die
Everything there's dead
So won't you tell me?
Live in outer space
Forget not that I'm fine
Can't control myself
Is this what you see in me?
Living inside me
You're dying, emotions collapse
Everything you'll see
So won't you tell me?

What I am in your head
Why can't you be like me?
Like him, still I don't understand why
I guess I fucked it up bad
Too bad, too bad

I can't be me
No dying, not the first time
Won't you run around
Inside, can't you see me?
Living inside half
To die, not to be me
Would you live like this?
So won't you tell me?

What I am in your head
Why can't you be like me?
Like him, still I don't understand why
I guess I fucked it up bad
Too bad, too bad

Get a meal, get a God
Do what you want and die
Get a meal, get a God
Do what you want and die
Get a meal, get a God
Do what you want and die
Do you want by wanting, want death?
Do you want by wanting, want death?
Do you want by wanting, want death?
Do you want by wanting, want death?

Like me?
Still I don't understand why
I guess you fucked it up bad
Too bad, too bad
I see my dreams
Of dying, can't you see me?
Living inside me
Don't get what you see in me

Living inside me
Oh God, won't you move out?
Why can't you tell?
Why won't you tell me?
