

## Hitch

## Nothingface

Recite, I feel everything, relight my own joy in this,  
My own faggot fantasy, t.v. series lightbulb coffin,  
Reborn, skinless nightmare, no words only questions,  
Like me, only everyone wants, feel this feeling  
Nothing

Nothing, do I care  
Brings me, lie to me  
Fucking, happiness  
Can I, hate myself

Push me through all closed doors, and I can't find my  
Way, I want to feel human, and I am what gives it  
Away, nothing can be done

Ugly, I am nothing but send me to my crucifix, raping,  
Falling inside out, playing what I used to be, would  
He, collect his own mind, my own is not pure and  
Whole, piece this, less is what I am, love is a  
Wonderful thing to hate
