"I miss her so much."

"I miss her so much."

"I miss her so much
Do you miss her?
Yes. I miss her so much."

She went here all by herself
She left me, left behind what's left
The last time I saw her
I lost her before we met
She's still mine

I am, I am
I'm too late
This isn't real
Never mind
I am, I am
I'm too late
This isn't real

I am, I am
I'm too late
This isn't real
Never mind
I am, I am
I'm too late
This isn't real

I've seen her all by herself
She's pretty, suffering but
She's lonely all by herself
This little girl can't
I've killed her all by myself
I didn't need you
She, she killed her fucking self

I am, I am
I'm too late
This isn't real
Never mind
I am, I am
I'm too late
This isn't real

I am, I am
I'm too late
This isn't real
Never mind

I am, I am
I'm too late
This isn't real

I feel I don't like me
In a darker mind I'm falling
