

## Dear Nova

Nova Rockafeller

And when I started had a heart full of fire  
Stomach fulla hunger, scars from the liars  
I got mad weed but I can never find my lighter  
They tried to break me down but I am strong like a tiger

Smoke my bowls  
I'm feeling broken it's beautiful  
See so much shit with no pharmaceuticals  
Drunk on the sidewalk, city under my feet  
Walk 100 blocks tryna figure out why I'm me

And I been hurt, but that's mine like a secret  
Somewhere in a shadow where you you can't see it  
Only I will know the shit I been through  
And I'll probably never tell you truth

I will keep the fucking pain to myself  
I'll pretend I'm not a mess, and just cells  
I'll keep the fucking rapes to myself  
And the hate for myself, to myself  
Like everybody else

Streets so dark and the park looks bright  
Jumping off swings, tryna reach new heights  
Hitting bowls in the slides, counting stars in the skies  
My reflection in the window, I get lost in my eyes

I look into the moments as they all coincide  
Block time, and I'm with myself on all those shitty nights  
Sitting on a suitcase, under city lights  
Had to run away because it wasn't really right

Took so many planes, met so many faces  
Fell in love so often, broke in all the same places  
I could hear a voice, it sounded like a boy  
Drink 'cause he get louder when I'm wasted

And I laugh when my exes get stabbed  
'Cause I'm a bad person, fuck me  
And he hits me up and I don't give a damn  
'Cause I'm not that person who leaves  
No, I will stay and drown  
I wanna be trapped under as it crumbles to the ground  
Crooked is my crown  
Yelling fuck it I'm down  
And throwing everything in reach

You left your shit and I covered it in bleach  
I can tear apart the world that we created in a week  
And I can't fucking help but tell everyone I meet  
When I crawl up on stage, throw my heart down at your feet  
I'm throwing everything in reach  
I'm throwing everything in reach

Remember me  
That bitty with mean right swinger  
The one you wanna dine out but don't like dinner

Who go catch you with a side ho and throw an appliance  
If you didn't want war why'd you break the alliance?

Breach, throwing everything in reach  
Man, I covered hella shit in gasoline or bleach  
I will set fire to the sheets  
I will fucking cut you until you're meat

Dear Nova  
If I could tell you shit  
You'll forgive yourself for everything you did  
Every heart you broke, and every time you shattered  
And how you'd do it all again, like a pattern

One day you'll go to meetings  
The pain will turn laughter  
They'll write you big checks, and you'll think it doesn't matter  
You just want to rap, and you know you'll go to hell and back  
To tell the world they're dying and nobody wants to tell 'em that

But that's one day, that's one too many days away  
I know you wanna die you'll barely make it through today  
And every single guy you fall in love with walks away  
'Cause they don't have the same pain in them that makes you grey

Dear Nova  
I'm from another plane  
I know sometimes you hear me in your brain  
When you dumb high, think you went insane  
I'm the person that you come to with your pain
