

# Fall Back

**Nova Rockafeller**

Fall back against me  
I can hold us up, baby I'm gonna make you breathe  
So fall back, against me  
Just fall back baby, yeah against me

Another round for me, what a suitable night  
What you found in me, you're losing a beautiful fight  
And I don't wanna go down swingin' so  
I'm goin' home to do some drinkin' yo  
I'm goin' home to do some drinkin' yo

Fall back against me  
I can hold us up, baby I'm gonna make you breathe  
So fall back, against me  
Just fall back baby, yeah against me

This is my heart, sometimes I hurt it  
I can't pretend that everything's perfect  
I had been broken, I can't get better  
I left your house still wearin' your sweater  
Be not forgotten  
Walkin' 'round like I still got options  
I am the problem, so I pack the bowl and turn up the volume

Fall back against me  
I can hold us up, baby I'm gonna make you breathe  
So fall back, against me  
Just fall back baby, yeah against me
