Nova Twins

The Devil's got your face on
Look at your reflection

Jeepers creepers, who called the Grim Reaper?
A trick of light, you've lost your mind
You are a little creature
We all have demons
Some hide, others seek them
It's you that is in front of you
Are you pleased to meet them?

The Devil's got your face on
Look at your reflection
The Devil's got your face on
Look at your reflection
The Devil's got your face on

Seeing's believing
You're wide awake and dreaming
Let's not pretend, just look again
You'll see your black eyes bleeding
Deceivers, believers
You're weak or born leaders
Pick or lose, it's up to you
Die or pledge your allegiance

The Devil's got your face on
Look at your reflection
