

Glory

Nova Twins

Catch a serpent
In disguise
It walks and talks just
Like you and I
Only angels learn how to fly
Until they dive

Catch a chill
Down your spine
It's getting late
It's cold outside
Only angels learn how to fly
Until they dive

Glory
Hallelujah
Save you from yourself

Blurry visions
Burning skies
Gold dust
Falling in your eyes
Only angels know how to fly
Until they dive

You made a deal
Signed on the line
It followed you
To another life
Only angels know how to fly
Until they dive

Glory
Hallelujah
Save you from yourself

The weight of your crown
Buried deep in the ground
Just another angel
Falling down

Only angels learn how to fly
Until they dive
Heavy as your crown
Only angels learn how to fly
Until they dive
Heavy as your crown

Glory
Hallelujah
Save you from yourself

The weight of your crown
Buried deep in the ground
Just another angel
Falling down

Heavy as your crown
Heavy as your crown
Only angels learn how to fly
Until they dive
Heavy as your crown
Only angels learn how to fly
Until they dive
Heavy as your crown
