

Lose Your Head

Nova Twins

Look who's talking
I'm a little overdressed, I'm at my best
Stop stalking
You stop and stare, keep pulling on air
Keep walking
You want to see a casualty, you're all looking at me
Keep looking at me

We're calling an enticing hex that will leave debris
In the morning
You wipe your specs
Your eyeballs can't stop rolling
Wind up your neck and lose your head
Watch them lose their heads
Now lose your head

I'm on the wild side, baby
Play with wildfire, baby
Lose your head
Get on the wild side
Come play with wildfire

Look who's talking
You're a prime suspect
I'm looking at a dead man walking
We play with darts and pierce their hearts with poison
If you fuck with me, one, two, three, heed my warning
Warning, warning

I'm on the wild side, baby
Play with wildfire, baby
(Lose your head)
Get on the wild side
Come play with wildfire

(Lose your head, lose your head)

I'm on the wild side, baby
Play with wildfire, baby
(Lose your head, lose your head)
Get on the wild side
Come play with wildfire

Fuck your clique
Bow to the freaks
I'd rather be just crazy
Fuck your clique
Fuck your clique
Fuck your clique
I love to watch them lose their heads
Love to watch them lose their heads
Love to watch them lose their heads
Wind it up and lose your head

I'm on the wild side, baby
Play with wildfire, baby
Lose your head

Get on the wild side
Come play with wildfire

(Lose your head, lose your head)

I'm on the wild side, baby
Play with wildfire, baby
Lose your head, lose your head
I'm on the wild side
Come play with wildfire
