

N.O.V.A

Nova Twins

When we say jump, they follow suit
One by one, we're in pursuit
All the fucking way to Timbuktu
Afro hair, black kinky roots
We kick 'em all off like buckeroo
Kiss our battle scars, moves like kung fu
Our vibes are high like sucking on balloons
The best things always come in two

What's the name bitch?
Say our name

Multiply like molecules
Laissez-faire, boss bitch attitude

Man to ra dost daram, love you boo
Always hear them say don't suffer fools
You're only living life when you tell your truth
