

Doctor, am I okay? I'm dancing with the dead  
They said I'm wasted, but I've been sipping on air  
I love to fill my cup, feels like a hundred shots  
They said I didn't make it, I'm already here  
I'm already here, I'm already here, well

Twitch  
I'ma lose while I'm in it, in it  
Twitch  
I'ma lose while I'm in it, in it  
Twitch  
I'ma lose while I'm in it, in it  
We're in it, in it  
You're in it, in it

Doctor, what have you done? This shit's got me all crazy  
Don't wanna fight, it's my only way up lately  
My soul has left this home, I'm only skin and bones  
I'm just existing in positions, I'ma lose control  
We'll lose control, we'll lose control

Twitch  
I'ma lose while I'm in it, in it  
Twitch  
I'ma lose while I'm in it, in it  
Twitch  
I'ma lose while I'm in it, in it  
We're in it, in it  
You're in it, in it

White lies, dog teeth  
I'm looking for a white rabbit, looking for him  
It's not make-believe  
He's standing in a sewer dead in front of me  
I'm looking for a white rabbit, looking for him too

(Twitch)  
I'ma lose while I'm in it, in it  
Twitch  
I'ma lose my mind  
Twitch  
I'ma lose while I'm in it, in it  
You're in it, in it  
We're in it, in it

Twitch  
We're in it  
I'ma lose while I'm in it, in it  
I'ma lose while I'm in it, in it  
Twitch  
I'ma lose while I'm in it, in it  
Twitch  
You're in it, in it  
We're in it, in it  
We're in it, in it
