

Vortex

Nova Twins

You're in the vortex now
Flip the switch to distorted sound
We are the underground
Creeping in through the cobra's mouth
You're in the vortex now
Feeling nauseous as tremors bounce
Who are the girls in the town?
We're on your doorstep now

Who are the girls in town?
Pick up your phones, better answer now
Who are the girls in town?
Hear them miles away, we're on your doorstep now
Who are the girls in town?
Pick up your phones, better answer now
Who are the girls in town?
We're on your doorstep now

Tick, tick, tick, like a bomb shell
Scrunch your face like a bad smell
I can tell that they love it when their hips swell
Watch their hair get ecstatic from their flip twirls
Shake, shake, shake until your brain melts
We don't care if you got it or you need help
If you have got the rhythm you can learn how to slap it down
Freak it out, turn around, jump about, scream it loud

Who are the girls in town?
Pick up your phones, better answer now
Who are the girls in town?
Hear them miles away, we're on your doorstep now
Who are the girls in town?
Pick up your phones, better answer now
Who are the girls in town?
We are the underground

You're in the vortex now
Flip the switch to distorted sound

Creeping in through the cobra's mouth

You're not in control
We're all slaves
To the rhythm

So get comfortable

Are you all

In position?

You're in the vortex now
