

Eternity

Novaspace

You're the only one that knows my secrets
Knows my fears and hopes and all of my flaws
Having you by my side
Forever feels so right
You're the only one I wanna be with

Time and space will bend to my will
My time with you never ends

Ref.

When it's just you and me
It's like a never-ending dream
Every day's on repeat
When you're smiling next to me
I can see you stare at me like I'm the one
Forevers fine with me so it's just you and me
Eternity

Eternity

Oh
Forevers fine with me so it's just you and me
Eternity

I could never find another like you
If we lost each other what would we do?
We spend all of our time together, side-by-side
I could never find another like you

Time and space will band to my will
My time with you never ends

Ref.

When it's just you and me
It's like a never-ending dream
Every day's on repeat
When you're smiling next to me
I can see you stare at me like I'm the one
Forevers fine with me so it's just you and me
Eternity

Eternity

Forevers fine with me so it's just you and me
Eternity

You are the light in the darkest days
My feelings for you will never fade
No

Just the to of us, we're unstoppable
You are the light in the darkest days

Ref.

When it's just you and me
It's like a never-ending dream
Every day's on repeat when you're smiling next to me
I can see you stare at me like I'm the one
Forevers fine with me so it's just you and me

Eternity

You and me, no
Eternity
Forevers fine with me so it's just you and me
Eternity
