If

1.
If everything was different
like time when I was born
Would I be the same
Would I be the same

If I spoke a different language
Would I be the same person
If you were not my man

2.
If everything was different
Like colour of my skin
Would I meet you in this world

Would I have different interests
Would I read different books
Would I have a different way of thinking

Chorus:
Do you believe me every word I say
Would you tell me when I´m wrong
Would you leave me if I went insane
Would you love me in these different circumstances

3.
If everything was different
If I´d been born as a boy
Would it be that easier
Easier to live

I´m sure that I would find you
I know that you´d find me

4.
If everything was different
Like place where I was born
If everything just stiffened
In temerity of this thought

I know that I would find you
I´m sure that you´d find me
´cos we are meant to be together

Chorus:
Do you believe me every word I say
Would you tell me when I´m wrong
Would you leave me if I went insane
Would you love me in these different circumstances
