

# One Day

November 2nd

1. Hey baby,  
the world is such a strange place to live  
Life is a strange thing we all have  
And no one knows what to do with it  
How did I get here  
How did it all come to this  
And there ain't nothing that can help me from feeling like  
this

2. My inner conversation is my  
Everyday meditation  
I talk to my flowers and  
I chat with my cat  
(I) bought me a small garden  
And so I live in isolation  
Then it ain't no wonder that I  
Find it hard just to talk to you  
To you

Ch: But one day all the problems will be solved  
One day I will answer your call  
But one day I'll feel easy like a child  
One day we'll teach each other to fly

3. I don't know my future and  
I forgot my past  
I live for this moment  
Though I know that it won't last  
Don't know where I come from  
And I don't care where I'll go  
I'm just a stranger and  
I guess I won't stay long  
I won't stay

Ch: But one day all my problems will be solved  
One day I will answer your call  
But one day I'll feel easy like a child  
One day we'll teach each other to fly
