

Birthplace

Novo Amor

Be it at your best
It's still our nest
Unknown a better place

Narrow your breath
From every guess
I've drawn my birthplace

Oh, I don't need a friend
I won't let it in again

Be at my best
I fall, obsessed in all its memory
Dove out to our death, to be undressed
A love, in birth and reverie

I don't want a friend
I won't let it in again
I don't need a friend
I won't let it in again

Here, at my best
It's all at rest
'Cause I found a better place
