

Dabke

Now United

Can you feel the rhythm in your soul
Can you let your body lose control
Grab a hold of someone's hand
Raise 'em high and don't hold back
Move your feet around like this and dance (oh yeah)

I'll teach you the dabke
One step at a time
Let's have a hufflee
And party all night
Come on ya habibi
And move to the right
Let me show you how it's going down

Keep on dancing
Keep on dancing
Get the whole world dancing
Following the drums
Come on everyone

In the middle of the crowd
Somebody getting wild
Turning this place out
Jumpin' up and down
Grab a hold of someone's hand
Raise em high and don't hold back
Move your feet around like this and dance (oh yeah)

I'll teach you the dabke
One step at a time
Let's have a hufflee
And party all night
Come on ya habibi
And move to the right
Let me show you how it's going down

Keep on dancing
Keep on dancing
Get the whole world dancing
Following the drums
Come on everyone

Lemme see you dabke
Go ahead and dabke
Lemme see you dabke
Go ahead and dabke
Grab a hold of someone's hand
Raise em high and don't hold back
Move your feet around like this and dance (oh yeah)

I'll teach you the dabke
One step at a time
Let's have a hufflee
And party all night
Come on ya habibi
And move to the right
Let me show you how it's going down

Keep on dancing
Keep on dancing
Get the whole world dancing
Following the drums
Come on everyone
