

Future Me

Now United

Ooh yeah
It's Now United
Let's go

Sun's out, it's a vibe for me
So dance in the galaxy
Low key, feels make believe
No, I don't wanna leave
We share the same bright star
Even though we're miles apart
One love, one beating heart
Yeah, you and me

I'm done with push and shove
It's time to live as one
Don't let the sun burn out, let it shine
I'm done with push and shove
I wanna scream and shout
If we just light it up, baby we can fly

No-oh-oh, yeah (Woo)
No one said that it was easy
Oh-oh, so we take to the streets
No-oh-oh, yeah
They said that we must be dreaming
So don't sleep, on future you and future me

Future you (Woo)
Future me
Dancing through the galaxy, yeah yeah
Scream and shout (Woo)
No we won't sleep
On future you and future me

So pinch me, I'm dreaming (Yeah)
Don't let me sleep in
We like a tribe (Woo)
When we unite, we won't be defeated
A million reasons (A milli)
To pick up the pieces
So light up the night
Yeah it's a vibe
Our hands to the ceiling (Let's go)

I'm done with push and shove
It's time to live as one
Don't let the sun burn out, let it shine
I'm done with push and shove
I wanna scream and shout
If we just light it up, baby we can fly

No-oh-oh, yeah (Woo)
No one said that it was easy
Oh-oh, so we take to the streets
No-oh-oh, yeah
They said that we must be dreaming (Must be dreaming)
So don't sleep, on future you and future me

Future you (Woo)
Future me
Dancing through the galaxy, yeah yeah
Scream and shout (Woo)
No we won't sleep
On future you and future me

Future you, future me
Dancing through the galaxy (Yeah)

No-oh-oh, yeah (Woo)
No one said that it was easy (Easy yeah)
Oh-oh, so we take to the streets (Oh baby)
