

Like That

Now United

I like the way that you're beautiful
But you don't act like it
With your friends, put me on speaker phone
They love the way we fit

Oh, oh

Oh, you're so far out of my league
But we click so easy like ABC
And I hope that you and me
Will never change

Cause I like it, like it, like it, like that
When I met you, knew that you were my last
Say my sweater fits you better, why's that?
Cause you like it, like it, like it, like that
Oh, your favorite place to sit is my lap
Anywhere you go, you make it high class
Say I love you, always say it right back
Cause I like it, like it, like it, like that

You kinda shy, but when we're alone
You're the funny one
People starin' at you head to toe
But I ain't worried, nuh-uh no oh oh oh

Oh, you're so far out of my league
But we click so easy like ABC

And I hope that you and me never change

Cause I like it, like it, like it, like that
When I met you, knew that you were my last
Say your sweater fits me better, why's that?
Cause you like it, like it, like it, like that
Oh, my favorite place to sit is your lap
Anywhere you go, you make it high class
Say I love you, always say it right back
Cause I like it, like it, like it, like that

Cause I like it, like it, like it, like that
When I met you, knew that you were my last
Say your sweater fits me better, why's that?
Cause you like it, like it, like it, like that
Oh, my favorite place to sit is your lap
Anywhere you go, you make it high class
Say I love you, always say it right back
Cause I like it, like it, like it, like that
Cause I like it like that
