

Live This Moment

Now United

Every morning, all around us, it's a new day
Breathe it in, it's up to us to find our own way
Take a chance on something new, gotta be brave
Yeah, you know you gotta be brave

Not afraid to take it further than we ever did
Got a vision and we're pushin' it beyond the grid
There's no limit 'cause we livin' off adrenaline
Yeah, we're living off adrenaline

Don't be afraid of breaking through
To take a chance on something new
Something that you would never do, ah yeah

Now's the time to let ourselves be loud
Way above the world up in the clouds
Do it for the love, for the life right now
Gotta live this moment
Light it up inside, we can't explain
Never gonna let this feeling fade
No more looking back at yesterday
Gotta live this moment
Gotta live this moment
Gotta live this moment

It's okay to just be in it for a good time
Look around, it's everywhere, under the blue sky
Take it in, it's time for us to feel the sunshine
Yeah, it's time to feel the sunshine

Don't be afraid of breaking through
To take a chance on something new
Something that you would never do, ah yeah

Now's the time to let ourselves be loud
Way above the world up in the clouds
Do it for the love, for the life right now
Gotta live this moment
Light it up inside, we can't explain
Never gonna let this feeling fade
No more looking back at yesterday
Gotta live this moment
Gotta live this moment

Don't look back at all your problems
Keep on moving with the flow
Set your mind above the pressure
Just take it slow
We can let this moment lift us
It doesn't matter where we go
We don't got, no
Ohhh

Now's the time to let ourselves be loud
Way above the world up in the clouds
Do it for the love, for the life right now
Gotta live this moment

Light it up inside, we can't explain
Never gonna let this feeling fade
No more looking back at yesterday
Gotta live this moment
Gotta live this moment
Gotta live this moment
