

dont mind me

nothing,nowhere.

So get your fingers out my fucking face
I fell asleep under the sun again
My heart's as cold as it has ever been
My body's burned but I am shivering

So what if I fall?
Could you look me in my eyes and say you remembered it all?
Back on the road
Been to Delaware, Kansas and Arkansas all on my own
The days that go, so let me go
On my own

So get your fingers out my fucking face
I fell asleep under the sun again
My heart's as cold as it has ever been
My body's burned but I am shivering
