

Hydrangeas

nothing,nowhere.

Pills same shade as hydrangeas
Club lights look like notation
Emptied out the ATM
"Re:stacks", I don't wanna go there
New GATs, I already sold them
Would you have stayed if I didn't break things?
Took 2 or 3, memory erased
Rehab, free vacation
But I'm scared that I'm losing patience
Hard drugs, yeah I wanna take them

And it's alright
We'll be alright by sunrise
Look in your eyes
I see them gloss and lose their light
I guess I'll sleep alone tonight

There was no noise
You were the wind and I was the cowboy
In the country
It felt real you were with me
But I woke up in the city

Pills same shade as hydrangeas
Club lights look like notation
Emptied out the ATM
"Re:stacks", I don't wanna go there
New GATs, I already sold them
Would you have stayed if I didn't break things?
Took 2 or 3, memory erased
Rehab, free vacation
But I'm scared that I'm losing patience
Hard drugs, yeah I wanna take them
