

# nightmare

nothing,nowhere.

(Nightmare, nightmare  
I'm livin' in a nightmare  
Nightmare, nightmare)

I live inside the nightttime  
She said, "I didn't feel like it's the right time"  
Well, I saw you with a new boy  
I'm lookin' for somethin' that I could destroy  
You know I hate it when you tease me  
I see you every night when I am dreaming  
Yeah, every time I see you right there  
You turn a dream into a fuckin' nightmare, yeah

I'm headed off the deep end  
Since you left, I swear I'm barely breathin'  
Lately, I've been steady speedin'  
4 AM debatin' with my demons

I've been feelin' like it's too late, too late  
Every day is like a doomsday, doomsday  
I pull up on him with my switchblade, switchblade  
And make him get a taste of my pain, my pain

I live inside the nightttime  
She said, "I didn't feel like it's the right time"  
Well, I saw you with a new boy  
I'm lookin' for somethin' that I could destroy  
You know I hate it when you tease me  
I see you every night when I am dreaming  
Yeah, every time I see you right there  
You turn a dream into a fuckin' nightmare, yeah

Dreaming of your hands, how they felt inside mine  
I can't understand why you wasted my time  
Playing Russian roulette, I'm by myself, 'cause  
You live in my head

I live inside the nightttime  
She said, "I didn't feel like it's the right time"  
Well, I saw you with a new boy  
I'm lookin' for somethin' that I could destroy  
You know I hate it when you tease me  
I see you every night when I am dreaming  
Yeah, every time I see you right there  
You turn a dream into a fuckin' nightmare, yeah

(Nightmare, nightmare  
I'm livin' in a nightmare  
Nightmare, nightmare  
I'm livin' in a nightmare)
