I'm with you

All of you I'm with you, I'm with you

Hey, the one love you gave me
Also holds me tight today
We gradually can't fall apart baby
Nothing is needed, just stay here
And hold on you, keep your eyes on me
I won't let you go anywhere wo oh

If we have affection
Turning hot for each other
I'll show you brand new me
That no one has seen yet oh

Connect, access to you, feel, access to me
Your smile belongs to me
Connect, access to you, feel, access to me
Our future
Can't be stopped, I don't want to stop it
Connect, access to you, feel, access to me
I love you without hesitation, by my side, by my side

You're my baby, love you You're my baby, love you

The one scene only for you and me
And the felling in my hand now
Our time is irreplaceable
I can tell you that I love you any number of times
If you close your eyes, just hush-hush
I'd like to carve my special love, love
Only for you in my heart
Touch my heart, I'm gonna get close to you

I wanna keep eyes on you So just stay by my side as it is Leave your heart and soul up to me Let's head to our own world

Connect, access to you, feel, access to me Everything belongs to me
Connect, access to you, feel, access to me
Our miracle will last forever
Let no one disturb us
