No matter how many doors there are
Please open them and beckon me to
Come nearer, my girl
I love you more beyond my imagination

I'd like to make no distance
Between you and me
So don't tell me "no", my girl
If I can hold you tight, that will make me high

(Try me) Let your hair that seems to tickle me
Blow and look over here
The "yes" smile you unexpectedly gave me
I'll just grasp this chance

Che, Che, Che, Cherry, Cherry
Oh Cherry, Cherry
I'd like to start with a mischievous kiss
Every time our lips touch
I fall in love with you again oh
Che, Che, Che, Cherry, Cherry
Oh Cherry, Cherry
Now I'd like you to
Quietly show all of you only to me

It's like the paradise
I won't let you go home, lock the door
Finally, I found the diamond
I'd like to know you more so, take off
What kind of world is at the end we'll arrive?
However, it isn't written in the dictionary
Now our story will become a truth
Don't worry

(Trust me) You and I love and roll
It is already perfect
I still want more and more
Do not just let go

Che, Che, Che, Cherry, Cherry
Oh Cherry, Cherry
Our hands twined together
I can't forget all of the
Warmness of your skin that my breath reached for oh
Che, Che, Che, Cherry, Cherry
Oh Cherry, Cherry
Lie down on your side
I'd like to always look at your sleeping face

We both who were wrapped up in the glow
Of the morning sun sparklingly dance

Do not stop us
It's alright even though you have no glass shoes
Let's just dance barefoot

Che, Che, Che, Cherry, Cherry
Oh Cherry, Cherry
I'd like to start with a mischievous kiss
Every time our lips touch
I fall in love with you again oh
Che, Che, Che, Cherry, Cherry
Oh Cherry, Cherry
Now I'd like to
Quietly show all of me only to you
Wanna show to you
