I will secretly  
Run to you and steal you tonight tonight

The time has come, I've quietly waited  
When the sun goes down  
Darkness falls and the cold air that pressed down on me  
Can't stop me anymore

Fly high, I am running against the wind  
Fly high, feels like my heart will explode  
Like time has stopped, my breath is running out  
Now it's the climax, I want to hold you in this last moment

I've ran here while panting, there's more that I want to do  
It's still early but my heart is already over there  
It's rushing me, even the clock hands  
Just stay still, I'm ready

When I'm drenched in sweat, I see you behind a faint light  
I hold out my hand and it seems like I can reach you  
I will steal you  
I won't let go now

Fly high, I am running against the wind  
Fly high, feels like my heart will explode  
Like time has stopped, my breath is running out  
Now it's the climax, I want to hold you in this last moment

I won't stop, I'll run farther, so I can kiss you  
I won't stop, I'll fly farther, so I can have you  
Tonight tonight tonight

Fly high, I am running against the wind  
Fly high, feels like my heart will explode  
Like time has stopped, my breath is running out  
Now it's the climax, I want to hold you in this last moment
