I'm missing you
And you make me wait for you
My heart aches so much that it's beautiful
I am made and broken down by you

My deep feelings have gotten clogged up
My memories have been flipped around
Then one day, I saw myself
Oh yeah

Let me turn time back and go to where you are
Let me stay with you

Even if I'm not seen in your memories
I am yours
Because I can't breathe without you

In this place, where I'm walking through the memories
I'd rather be trapped here, dejavu
You can deceive me with the time
Just keep staying here, dejavu

Say woo woo woo woo woo
Woo woo woo woo woo
Don't disappear even for a moment, dejavu dejavu
Say woo woo woo woo woo
Woo woo woo woo woo
I miss you so I sing, deja dejavu

Doo roo tu doo roo tu
Doo roo tu tu doo doo ru

Closing my eyes to the ruined memories
We're returning to the end that's been decided
Captured by fate
I remain alone in longing

Let me walk to the bright place, leave the light on
I can see you here

I don't care if I become your shadow
I'm yours
I need you

In this place, where I'm walking through the memories
I'd rather be trapped here, dejavu
You can deceive me with the time
Just keep staying here, dejavu

In the mirror, it used to be only me
But now you're here
I can see you
You're looking at me too

Say woo woo woo woo woo
Woo woo woo woo woo
Don't disappear even for a moment, dejavu dejavu
Say woo woo woo woo woo
Woo woo woo woo woo
I miss you so I sing, deja dejavu
