I won't brake

〇〇〇〇〇〇 〇〇〇〇〇〇

〇〇〇〇〇 yeah 〇〇〇〇〇

Let's go anywhere, just the two of us
Hitting the gas, accelerating heartbeat
Cutting of the noise, meaningless navigation, the words
That we exchange are what lead us to our destination

Tell me your recent favorite song
Because my answer will be "you"

Silence is smiling
Time is holding its breath
My heart is going out of control

Driving to your highway
Let's leave it up to our mood
We'll run wherever we like
No need to care about the destination
If you agree
I won't brake

Hearts getting close, leaning on shoulders
Just like that, stay by my side, stay by my side
Keep being honest yeah with free mind
Just like this, stay by my side, stay by my side

In this wide world, you are the only one
Your smiling face looks brighter than anything else
It's reflected in my eyes

Lately where and with whom have you been
I only care about you

Hands on top of each other, should I squeeze yours tightly
Pretending that everything's fine while my heart is going crazy

Driving to your highway
Let's leave it up to our mood
We'll run wherever we like
No need to care about the destination
If you agree
I won't brake

Hearts getting close, leaning on shoulders
Just like that, stay by my side, stay by my side
Keep being honest yeah with free mind
Just like this, stay by my side, stay by my side

We'll run wrapped in headwind
Let's play our favorite song
I'll hum together with you
Let's wave our hands to the scenery fading away
This is a world that belongs just to two of us

Driving to your highway
Let's leave it up to our mood
We'll run wherever we like

No need to care about the destination
If you agree
I won't brake

Hearts getting close, leaning on shoulders
Just like that, stay by my side, stay by my side
Keep being honest yeah with free mind
Just like this, stay by my side, stay by my side
