Sunrise melted away
Beneath the horizon far away in the distance
Sky high I wanna find you getting drenched in sunlight
Smiling and shining

Still in the same place
Wandering in the labyrinth
(Can't get out from your anxious eyes)
Feeling your small shoulders softly
(You're still in your dream)
Holding you
(You got your wings, it's like an angel)
I'll stay with you

One, two, fly! The starting signal
Moving now! Before you hear it
Flying flying angel let's fly away
(Spread) your newborn wings
One, two, fly! You don't have to be afraid of anything
To the place floating in your eyes (alright alright)
With the white wings now, flying angel

Anybody could get disappointed
And nervous than usual
On days you feel like crying
Give up setting limits
By yourself, don't stop
Inside the maze
Don't look down and be sad

With you I'm looking at you (always heart you)
At the time you open the door (I'll be with you)

Teardrops
Will change into the blue ocean
Swallowing the border
Blushing and being wafted on the breeze
(Do as your own way it's your heart)
Anywhere as far as you want
(You got your wings, it's like an angel)
I want to hold you

Show me now! My heartbeat is getting faster
Moving now! Feelings like stepping forward
Flying flying angel more than anyone
(Spread) your sparkling wings
Show me now! Blowned up by the wind
Faith between us change our future (alright alright)
Into the brightness flying angel

(I will) always
Stay (with you)
Together

One, two, fly! My heartbeat is getting faster
Flying wow
Show me now! Let's step forward now
Oh angel wow
