Baby, I can give you good good good good good love
I can give you good good good good good love
I can give you good good good good good love
I can give you good good good good good love

You're so pretty, I can't think of anyone else (to me)
I can't even compare you to a flower
Every day, I try to explain how I feel
But words aren't enough

Feels like we'll have
More and more similarities
Yeah yeah yeah yeah yeah
Even if you don't say it, I know

I'm your love
I'm the one
Need your love

I'm your love
I'm the one
Need your love

When you're with me
I can make you special
Even if I lack at some points
I'll try hard every day

Baby, I can give you good good good good good love
I can give you good good good good good love
I can give you good good good good good love
I can give you good good good good good love

What's the use of saying it?
You're the star to my Milky Way
You're too precious, even for my eyes
When you turn around
When you blink
All the times you don't think of
Yes, I don't wanna miss a single moment
Yes, I won't miss a single moment
Yeah yeah yeah yeah yeah

You don't need to say anything

I'm your love
I'm the one
Need your love

I'm your love
I'm the one
Need your love

When you're with me
I can make you special
Even if I lack at some points
I'll try hard every day

Baby, I can give you good good good good love
I can give you good good good good love
I can give you good good good good love
I can give you good good good good love

From the moment I pick you up
To the moment I drop you off
You're the only one in the world
So I'll gift you with each day
That is the only one in the world

When you're with me
I can make you special
Even if I lack at some points
I'll try hard every day

Baby, I can give you good good good good love
I can give you good good good good love
I can give you good good good good love
I can give you good good good good love
