On a cold winter day
God has sent an angel on earth for one person
After a long time passed
That angel who has given so much love
Had been hurt and shed tears
But the angel still smiled at me

After we loved and were separated for a bit
This is the angel's first birthday
I can't be next to you but
Happy birthday, happy birthday
I thank the one who made you be born
Once again, happy birthday

After we loved and were separated for a bit
This is the angel's first birthday
I can't be next to you but
Happy birthday, happy birthday
I thank the one who made you be born
Once again, happy birthday

After we loved and were separated for a bit
This is the angel's first birthday
I can't be next to you but
Happy birthday, happy birthday
I thank the one who made you be born
Once again, happy birthday

Happy birthday
I love you so much
