□□□ □□ □□ □□

□□□ □□ here we go! go! go!

Hello into your mind

Come to me little by little so no one can notice

Let's secretly start here, come to me

I want you shawty you're my boo

I can only see you, only you

Go with this beat with your entire body

Roughly knock down this night like crazy

All ready! This is my show!

Just trust me and follow me

The hot fahrenheit is climbing up

This burning moment tonight, hello hello

Make your entire body shatter, hello hello

Get drunk with the music, trust your body

Trust the rhythm, here we go, go go, let me go

So you won't forget this night, hello hello

So your heart will explode, hello hello

Get drunk with the lights, trust your body

Trust your soul, here we go! Go! Go!

Hello into your mind

Quietly follow me to a place where no one is around

Passionately and softly feel me, hear me now

Your eyes are telling me

There's no need to be nervous anymore

However your heart leads you, however your body leads you

Feel this charge, get drunk off of it

Your small and tiny cells are opening

Feel it, feel it, feel your passion

I like your intense words

Let's play like crazy all night

This burning moment tonight, hello hello

Make your entire body shatter, hello hello

Get drunk with the music, trust your body

Trust the rhythm, here we go, go go, let me go

So you won't forget this night, hello hello

So your heart will explode, hello hello

Get drunk with the lights, trust your body

Trust your soul, here we go! Go! Go!

Hello into your mind

All of my nerves have fallen for you

(When tomorrow comes, we'll be strangers again)

If only I can stop time

If only I can hold you

Girl, relax your mind

You don't have to be afraid

Baby, let's go!

This burning moment tonight, hello hello

Make your entire body shatter, hello hello

Get drunk with the music, trust your body

Trust the rhythm, here we go, go go, let me go

So you won't forget this night, hello hello

So your heart will explode, hello hello

Get drunk with the lights, trust your body

Trust your soul, here we go! Go! Go!
