We're coming back

Do you remember? The day
We first met each other
It's unforgettable all the time, isn't it? oh baby
During the time we can't see each other
Let the love fly in the wind to the sky
We are singing for you, it's alright, we are watching you

Hey, love, we can hear you
We are by the side of you who work hard
And sing for you
We'll send you our love right away now, baby
Hey, love, thank you
You are always in our hearts
Just step forward
We won't be afraid in the future if we have you, baby

We had a promise, didn't we?
Like the rising Sun
We definitely definitely don't change, oh baby
Light up your gentleness
If I follow the light
I will go to you wherever you are, just keep your eyes on me

Hey, love, we can hear you
We are by the side of you who work hard
And sing for you
We'll send you our love right away now, baby
Hey, love, thank you
You are always in our hearts
Just step forward
We won't be afraid in the future if we have you, baby

L.O.V.E love you girl
L.O.V.E love you more more
L.O.V.E love you girl
L.O.V.E love you more

Hello hello, all the feelings overflow
My love my love, just call me if you are tired
For real, baby, I'll be happy if we're together
Don't leave me, I won't let you go. Just you, ha ha, let's go

Hey, love, we can hear you
We are by the side of you who work hard
And sing for you
We'll send you our love right away now, baby
Hey, love, thank you
You are always in our hearts
Just step forward
We won't be afraid in the future if we have you, baby
