(Kill my soul, kill my name
Kill my pain, a good for me
□□□ □ □□□ □ □□□ □□□
Kill my soul, kill my name
Kill my pain, a good for me)

While the inside of my head was completely
Forgetting about you
At some point, someone is by my side
As if things are repeating
It's probably because I feel bad
I don't love her yet
I'm just living in each day
That repeats itself

Though I know I shouldn't I called you again
You ask, "Though you knew you shouldn't
Why did you call?"
Then I couldn't believe it but
With a calm voice, you said to me
"All of those happy memories, don't you think
They never existed in the first place, like a lie?"
I'm so dizzy, I'm so dizzy

Kill my soul, kill my name, kill my pain, a good for me
I wanted and wanted but to me
You weren't there but only your memories
Kill my soul, kill my name, kill my pain, a good for me
Why is my heart going toward you like this oh no~

In my memories, I was afraid my heart
Would be noticed by you
So I hid and hid and avoided as I looked at you
Going far away
I love you but you are not here
Anymore in this place
Even if I want to see you, I can't
Your smile, those tears, oh I need you

Though I know I shouldn't I called you again
You ask, "Though you knew you shouldn't
Why did you call?"
Then I couldn't believe it but
With a calm voice, you said to me
"All of those happy memories, don't you think
They never existed in the first place, like a lie?"
I'm so dizzy, I'm so dizzy

Kill my soul, kill my name, kill my pain, a good for me
I wanted and wanted but to me
You weren't there but only your memories
Kill my soul, kill my name, kill my pain, a good for me
(Oh I couldn't believe it but)
With a cold voice, you said to me, oh no

In my love, in my pain, in my memories
You hugged me with a warm smile
I was tired from all the rain and wind inside of me
But without a sound, you came inside and held me
Do you do you know about my
Sore scars?

Do you do you know about my painful memories?
I'm sorry, so sorry, good bye, good bye

(Kill my soul, kill my name
Kill my pain, a good for me
Though I knew I shouldn't, why did I call?
Kill my soul, kill my name
Kill my pain, a good for me)
