Today, if it'll be a beautiful night with you
I want to naturally
Make the flower bloom

I want to make you feel my heart
Without holding back
Take my hand take my hand

I'm telling you
A different heaven, a different time
A different place (love you, love you)

I can't lie to you
We are giving the same signal
I won't lie to you
I saw a miracle
Yeah it is you

Baby you the beautiful you
The beautiful you
Baby you the beautiful you
The beautiful you
The beautiful you

A bright neon sign
When you close your eyes, I'll be your firefly
The beautiful you
Past the sad memories
I want to hug you some day

The beautiful you

I will find you and figure out
You are my groove, you are my mood
You're like an eternal sweetness
I believe in this feeling that reaches us (believe)
I've never doubted (never)
I believe that we are connected
Whenever, wherever

I can't lie to you
We are giving the same signal
I won't lie to you
I saw a miracle
Yeah it is you

Baby you the beautiful you
The beautiful you
Baby you the beautiful you
The beautiful you
The beautiful you

A bright neon sign
When you close your eyes, I'll be your firefly
The beautiful you
Past the sad memories
I want to hug you some day
The beautiful you

With all the senses on my fingertips
I will send to you
If there is a signal for us
Even if it's in a different dimension
I'll send you a sign

Baby you the beautiful you
The beautiful you
Baby you the beautiful you
The beautiful you
The beautiful you

A bright neon sign
When you close your eyes, I'll be your firefly
The beautiful you
If I am given the time to see you
I will protect you
The beautiful you
