Give me give me
□□□ □□□ give me give me
Ah give me give me give me

I'll find my love
I'll find my love love love

It's true, when all the colors come to life
We will sketch ourselves
It gets clearer, my dream, the more I draw you
We are complete

In the world I see through you
So many things different from my perspective
On top of the hill on the cloud
Difficult emotions
These emotions
White emotions
I am feeling them

Real love true love
Real love true love
You know what I'm sayin' now

A clear morning, give me give me give me
Give me give me
A pure heart, give me give me
Ah give me give me give me

If you believe in love at first sight
I will draw all of your dreams
In this place that I made for you
I want to gather our memories one by one

In the world I see through you
So many things different from my perspective
On top of the hill on the cloud
Difficult emotions
These emotions
White emotions
I am feeling them

Real love true love
Real love true love
You know what I'm sayin' now

A clear morning, give me give me give me
Give me give me
A pure heart, give me give me
Ah give me give me give me

Out of the many colors, the most beautiful is you
I'll sketch it with you, color it with you
The dawn gets bright because of you
Filling up the white space into a picture
We're making it together
In the air, we are breathing

Real love true love
Real love true love
You know what I'm sayin' now

A clear morning, give me give me give me
Give me give me
A pure heart, give me give me
Ah give me give me give me
