Don't wanna know what time it is
Wandering at the border of reality
Reverse the space-time dreams join our hearts
The secret garden that belongs to you and me
You fell right in front of my eyes
When you just fell from the clouds
My sleep walking starts passing by
Every crossing that you might appear suddenly

Don't wanna waste time on waiting anymore
We exist for each other
I'll be your sincere Mr. Right
Don't wanna carry on regretting all by myself
My asleep state maintains
The best timing to love you is now, say

I dreamed you and you were in front of my eyes

I dreamed your smiling face
I wanna hold you until forever
You appeared when I'm asleep
You disappeared when I'm awake
Can I just live in my dream? Say

I wanna confess, confess, confess, confess my love
(Just live in my dream)
Don't wanna see us
Going separate ways anymore
I wanna embrace, embrace, embrace your love
Don't wanna wake up
Alone anymore

All the conditions of dreaming are fulfilled
Miracle will surely happens
When the meteor shots across the sky
I'm willing to devote my passion
And persistence for you
I'm willing to give up my adventure
And my world for you

Don't wanna waste time on waiting anymore
We exist for each other
I'll be your sincere Mr. Right
Don't wanna carry on regretting all by myself
My asleep state maintains
The best timing to love you is now, say
